

## HOTEL REALM - SUITES

LOCATION: BARTON,, CANBERRA  
YEAR: 2015

The refurbished and expanded Executive Suites allow guests a choice of two distinct experiences.

The first suite has been reconfigured to create a large open plan space. Sleeping, dressing and bathing areas are connected to create an open spatial sequence allowing light into the deepest part of the suite, and also ensuring views from each space. Pivoting oak battened doors provide a high level of detail and the ability to close off each space. Soft lighting, customised furniture and a palette of timber, limestone and leather create an atmosphere of refined luxury. Dark steel accents provide contrast to the neutral backdrop.

The second suite features a richer paletter with an emphasis on contrast and texture with a palette of silks, leather, timber and wool. The bathroom incorporates warm timbers and brown limestone to create a dark and luxurious mood.
